- Compressed gases, corrosive materials, flammable liquid or solid materials.
- Oxidizing materials, such as oxygenating substances and peroxides.
- Corrosive materials, such a mercury, acids, alkalis, and car batteries.
- Poisonous substances and pathogens.
- Radioactive materials, foul smelling and other hazardous materials must not be brought on board.

**Transportation of domestic animals:**

Small domestic pets (cats and dogs only) may be carried in the cabin as long as the passenger has the necessary sanitary documentation in accordance to the current legislation. The animal is under the care of the passenger and should be kept in an appropriate, sturdy, secure rigid container, with a leak proof floor and openings for adequate ventilation. The container should not exceed the following size: 48x33x29 cm. The weight of the container, pet and food included, should not exceed a total of 10 Kg. In addition, pets should not emanate offensive odor and must remain in the kennel at all times when aboard the aircraft. In case the pet disturbs other passengers, the Captain has the authority to transfer it in the hold. Company regulations stipulate that a maximum of two pets may be taken on board and no more than one per passenger.

The transportation of animals (dogs and cats) in the hold is available on MD80 - MD82 aircrafts and A330 aircraft. The request must be made at the time of booking and is subject to confirmation by the Airline (no more than four animals may be transported in the aircraft hold).

In the unfortunate event that the aircraft is not able to transport animals in the hold, and if the call center fails to inform the passenger of this fact within 12 hours from the departure, the passenger holding the animal will be entitled to a full refund of the unused portion of the ticket and of the fee for the transportation of the animal in the hold.
